

ITIL® 4 Leader: Digital and IT Strategy

Course code: HU0C6S

The adoption of ITIL as the most widely used guidance in the world on IT and service management continues with ITIL 4. It ensures continuity with existing ways of working (where service management is already successful) by integrating modern and emerging practices with established and proven know-how. ITIL 4 also guides individuals and organizations to see the benefits of these new methods and to move toward them with confidence, focus, and minimal disruption. ITIL 4: Digital and IT Strategy (DITS) focuses on the alignment of digital business strategy with IT strategy, adding a new perspective to the ITIL suite and elevating the discussion around ITIL concepts to a strategic level among business leaders and aspiring leaders. It also covers the disruptive impact of new technologies in every industry, as well as the response from business leaders. It is one of several ITIL 4 publications which builds on the concepts introduced in ITIL Foundation: ITIL 4 Edition. Each of these publications focuses on a different aspect of service management. The exam is included in the price of the training.

Who is the course for

- Senior IT leaders and executives
- Managers, supervisory staff and team leaders
- IT professionals who require a deeper understanding of ITIL 4 publications, including how ITIL 4 concepts and activities can be implemented to enhance the quality of IT service management within an organization
- IT and business directors, department heads, aspiring C-suite professionals, and other business leaders across the organization who are looking for guidance to help craft a digital vision, shape IT and business strategy, and drive organizational change
- IT architects, IT planners, IT consultants, IT audit managers, IT security managers, IT developers and operational support staff
- Service management professionals and ITSM trainers interested in achieving the Managing Professional designation in the new ITIL 4 framework

What we teach you

The DITS course prepares candidates for the PeopleCert ITIL 4 Leader DITS formal examination. The official DITS

course syllabus outlines the following objectives:

- Demonstrate the use of the ITIL guiding principles in digital and IT strategy decisions and activities
- Understand how to leverage digital strategy to react to digital disruption
- Understand the relationship between the concepts of digital and IT strategy, the service value system and the service value chain, and
