

BABOK: Preparation for ECBA certification

Course code: BEPECBA

Action! Order this training from us and you will have a one-year IIBA membership included in the price of the training (regular price for citizens of the Czech Republic and Slovakia is 89 USD). Valid until further notice.

BABOK stands for Business Analysis Book of Knowledge and is a set of recommended and proven practices for business analysts. It is managed by the non-profit organization IIBA (International Institute of Business Analysis), which, among other things, sponsors the BABOK knowledge certification.

The IIBA certification program provides three basic certification exams: ECBA, CCBA and CBAP. Each level requires experience in the field in addition to passing the test.

Fortunately, it is not a big deal for the ECBA level: in the last 4 years, you have to spend at least 21 hours studying the issue (training, webinars, BABOK self-study, etc.).

In three days, our training will guide you through all the necessary parts of the BABOK that you must know. A lot of time will be devoted to the type of questions you may get in the test. The questions will be discussed, answered and explained together, and the participants will try at least one separate 60-minute test themselves. All questions will be in English, i.e. the same as in the real test.

Note: from March 2021 there are new prerequisites for the ECBA level. This training fully reflects the changes.

Who is the course for

All those who have:

- Knowledge of the English language (interpretation is in Czech, but tests and separate BABOK are in English)
- Recommended: have experience as a business analyst
- Recommended: have your copy of BABOK

BABOK knowledge requirements for ECBA certification (and therefore training content)

- Business analysis as such: 2.5%
- Basic concepts of business analysis: 5%
- Competence: 5%
- Techniques: 17.5%
- Business analysis planning and monitoring chapter: 5%
- Chapter Elicitation and collaboration: 20%
- Chapter Requirements life cycle management: 20%
- Chapter Requirements analysis and design definition: 25%

The test itself consists of 50 questions that you have to complete in 60 minutes. The knowledge you have to demonstrate in the test refers to the BABOK as such.
