

SAP Analytics Cloud: Integrated Planning

Course code: SACP30

Learn how to import and export data between SAP S/4HANA, SAP Integrated Business Planning and SAP Business Warehouse and SAP Analytics Cloud (SAC) using the New Model. Explain the integration with BPC Standard and BPC Embedded for BPC customers who need to use SAC in conjunction with their on-premise BPC system. Explore how Analytics Designer, SAP Analysis for Microsoft Office, and SAP Analytics Cloud add-in for Microsoft Office can be used with SAC. Discuss the off-the-shelf planning content including FP&A and Workforce Planning. The course material will be delivered in English. This course is a deep-dive course. Please ensure you have taken the SACP20 course or have equivalent foundational knowledge of the overview topics covered in that course. Course based on software release: SAP Analytics Cloud 2022.15 (QRC).

Who is the course for

- Application consultant
- Business Analyst
- Data Consultant
- Technology Consultant
