

SAP Integration Technology – Interfaces I (BAPI / IDoc)

Course code: BIT101

This course is designed to give participants an overview of the RFC and IDoc Adapter of SAP on-premises integration solution. The main scope is SAP NetWeaver process integration / SAP Process Orchestration 7.5. The participants will gain knowledge about creation and usage of both adapters. Course based on software release: SAP NetWeaver Process Integration 7.5.

Who is the course for

- Application Consultant
- Business Process Architect
- Developer
- Developer Consultant
- Industry Specialist
- Program/Project Manager
- Solution Architect
- System Administrator
- Technology Consultant

What we teach you

This course will prepare you to:

- Create and use an RFC Adapter as Receiver and Sender
- Create and use an IDoc Receiver Adapter

Required skills

Essential

- SAPTEC Fundamentals of SAP Web AS
- BIT100 SAP Integration Technology - On-Prem Integration Architecture Overview

Recommended

- Basic understanding about integration technology

Course outline

- Integration Technology, Based on BAPIs and IDocs, Basics
- Explaining the Integration Technology Based on BAPIs and IDocs, Basics
- Intermediate Document (IDoc) Connectivity
- Using the IDoc Adapter in the Advanced Adapter Engine (AAE)
- Using the Functionality Options on Different tabs
- Configuring the Receiver IDoc_AAE Adapter
- Configuration of SAP Business Application Programming Interfaces (BAPIs) Connectivity
- Explaining the Receiver Remote Function Call (RFC) Adapter
- Configuring the Receiver Remote Function Call (RFC) Adapter
- Configuring the Sender Remote Function Call (RFC) Scenario
- Executing Communication Through the Sender RFC Adapter

What you need to know

- This is an overview course, which gives basic information about the classic adapters RFC and IDoc.
- Extend your knowledge:
- BIT500 – SAP Java Process Integration
- BIT102 – SAP Integration Technology Interfaces II (Web Interfaces)
