

Business Processes in SAP S/4HANA Sales

Course code: S4600

In this course, you will learn about the fundamental business processes in SAP S/4HANA Sales, including how to perform the most important functions from presales to receipt of customer payment. You will also learn about the key master data in this area. The course also touches on integration with the areas of materials management, manufacturing (make-to-order process) and financial accounting. Course based on software release: SAP S/4HANA 2022 FPS00.

What you need to know

- This course focuses on sales business processes and is suitable for participants who do not know the sales processes. This course covers the functions in sales processing in SAP S/4HANA. This course does not focus on sales and distribution customization. For those who already know the sales processes in SAP ERP, the delta training course S4SD1 or is more applicable. For those who are interested in learning customization, the S4605 course (sales processes in SAP S/4 HANA) is more applicable.
