Who is the course for

The course is intended for users with a basic knowledge of the Inkscape program, who need to take full advantage of its

possibilities.

Required skills

Knowledge at the level of our course Inkscape – Basic course [INK1].

Course outline

Inkscape control
- document properties
- document templates
- display modes
- advanced Inkscape settings
- modification of keyboard shortcuts
- convert objects to guides

Drawing objects
- Spiro paths
- B-spline curves
- create 3D boxes
- fill bounded areas
- spraying objects
- diagram connectors
- extensions for drawing objects

Editing objects
- simplification of the path
- inset, outset, dynamic outset
- tweak object by sculping
- live path effects

- bitmap objects
- masking

Manipulation of objects
- selection of objects according to properties
- arrangement of objects

Formatting objects
- mesh filling
- creating your own color palettes
- creation of own patterns
- create your own stroke styles
- creation of own markers

Filters
- overview of filters
- creating your own filter

Text in Inkscape
- font installation
- advanced typography
- convert text to path
- SVG font editor

Document organization
- object properties
- XML editor
- selectors and CSS
- SVG structure
- SVG code editing

Inkscape extension
- overview of interesting extensions
- extension installation

Import and export
- import EPS/PDF files
- preparing graphics for prepress
- preparing graphics for web and electronic publishing
- external SVG compression tools
