Course code: MSCOP_EX

Join us for a one-day workshop "Microsoft 365 Copilot in Excel" where you will learn how to make your work more efficient with the help of the revolutionary tool Copilot. This course is for anyone who uses Excel 365 and wants to learn how to use Copilot to automate routine tasks, analyze data, and create compelling reports. With a series of practical examples and exercises, we will guide you step by step so that you can use Copilot to the fullest and become more productive than ever before. Microsoft Office version 365 with Copilot is installed in the classroom. You do not need to arrange the license yourself. In this workshop, a lot of emphasis is placed on individual exercises. The range of independent exercises is at least 30 percent.
