

Affinity Photo – basic course

Course code: AFFPH1

Are you looking for a high-quality professional raster graphic editor, but do not want to pay hot sums for Adobe Photoshop subscriptions? Finally, there is an alternative – Affinity Photo!

On our course, you will learn to understand the issues of photo processing and understand important contexts so you can control Affinity Photo accurately. You can do everything from basic photo editing, through work with layers to basic work with layer masks. Learn how to resize photos, retouch and remove unwanted elements, create collages and photomontages, and modify your skin. During the course, you will also learn how to properly prepare your work for web pages or for print.

Affiliate	Duration	Course price	ITB
