

# Microsoft Outlook - Efficient Use of the Application

Course code: MSOL

Complete this course and get 90 days access to practice in e-learning version for free. You can choose the e-learning course in Czech, Slovak or English. The course is designed for all experienced users of Microsoft Outlook who want to fully benefit from all the possibilities of this application. The participants will try all possibilities of working with email, calendar, tasks and contacts in the laboratory conditions without the risk of losing real data. They will learn how to safely archive data, how delegate selected permissions (access to mail, calendar, contacts) to your colleagues, or how to share information via public folders. We will touch the topic of privacy and security in electronic communications. This course is suitable for users of every version of Microsoft Office products. Outlook is a well-matured application and control of its interface has not changed significantly in last versions. Current version of MS Office will be installed in the classroom.
