

SAP Fiori Elements Development

Course code: UX403

This course is designed to give participants the opportunity to gain the overall understanding and hands on experience of SAP Fiori Elements in their development efforts to create more robust and visually appealing SAP Fiori applications with less effort than freestyle Fiori development. The course will cover SAP's User Experience design methodology and the overall SAP Fiori Elements design principles, templates and tools for building SAP Fiori apps. By way of hands-on exercises, learners will gain practical experience while they build their own SAP Fiori applications using the following floorplan: List Report; Object Page; Overview Page; and Advanced features of List Report and Object Page. Course based on software release: SAP Fiori 3.0, SAP S/4HANA 2021, ABAP Platform 2021, AS ABAP 7.56.
