

Adobe Premiere – Advanced Techniques

Course code: DGV12

In the first part of the course you will deepen your knowledge of Adobe Premiere Pro on advanced techniques of video and audio editing, applying effects, color correction, masking and keying animation. In the second part of the course you will devote to exploring additional applications that relate to the production of a video – in Adobe Prelude you will prepare the footage for editing and in Adobe Audition you will mix and improve your sound.
