

# Integrace a API – prakticky a názorně

Course code: BEIAPI

Integration and data exchange between applications – an increasingly important discipline, essential for the success of today's IT projects. At the same time, it is a discipline that many find difficult to grasp, standing at the intersection of analysis, architecture, programming, security, networks, and infrastructure in general. Our training will guide you safely through this integration jungle and clearly demonstrate, using practical examples, how to approach integrations so that you can successfully handle them in your projects.

| Affiliate | Duration | Course price | ITB |
|-----------|----------|--------------|-----|
| Praha     | 2        | 19 990 Kč    | 20  |
