Who is the course for

To all who have:
- Practical knowledge of UML
- Knowledge required for the previous level -
- **Preparation for the OCUP 2 Foundation certification**

Teaching methods

Professional explanation with practical samples and examples.

Teaching materials

Book UML and OCUP 2 or How to certify your knowledge of UML 2, Intermediate level

Additional Information

Own certification exam

The training can be ordered without the certification exam (i.e. only preparation), or including the provision of the exam - one date. Securing the exam means selecting a certified center in the Czech Republic according to the customer's preferences, agreeing on a date and time, and then securing this date. The customer must behave according to the rules required by the certification center.
